

# PUBLIC NOTICE

**PERMIT APPLICATION:** NRS #04.369

**APPLICANT:** State of Tennessee  
Department of Transportation  
Environmental Planning and Permits Division  
Suite 900, J. K. Polk Bldg.  
505 Deaderick Street  
Nashville, TN 37243-0334  
615/253-2477

**LOCATION:** Water Tower Road bridge over Rutherford Fork Obion River.  
Carroll County

**WATERSHED DESCRIPTION:** The Rutherford Fork Obion River watershed consists of numerous tributaries and wetlands. Land use is predominantly rural agricultural. Rutherford Fork Obion River is a silt/sand/clay-bottomed stream and varies in width approximately 15 – 20 feet with 6 – 10 foot banks. The existing vegetation along the stream channel consists of agricultural lands and a thin riparian zone with mature hackberry, American elm, and box elder.

**PROJECT DESCRIPTION:** The applicant proposes to replace the existing Water Tower Road Bridge over Rutherford Fork Obion River. This would involve stream crossings and relocations.

**Station 18+31:** Rutherford Fork Obion River. Existing conditions consist of 430 ft. of open stream plus 27 ft. of 2 @ 10 ft. X 9 ft. concrete box bridge. Applicant proposes to extend the existing bridge by 10.5 ft. and relocation of 445 ft. of open stream channel. There would be no loss of stream length. There would be 65 ft. of riprap involved in the relocation, however, since there was an addition of 25 ft. of stream length only 40 ft. of riprap lined channel would require mitigation. Other aspects of this project are covered under General Permits.

Applicant proposes to mitigate for 40 ft. of riprap-lined channel by paying 6,000.00 into the Tennessee Wildlife Resources Foundation In-lieu Fee Stream Mitigation Program. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

**PERMIT COORDINATOR:** Brian Canada, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7<sup>th</sup> Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534

**USGS TOPOGRAPHIC QUADRANGLE:** McLemoresville, TN (445-NE).

**TO WHOM IT MAY CONCERN:** The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of Water Pollution Control at the address listed above. Written statements received in this office on or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.
